Address, STATE JOURNAL, Topeka, Kansas.

THE FIRST PAPER IN KANSAS TO SECURE THE LEASED WIRE SERVICE OF THE ASSOCIATED PRESS, controls exclusively for Topeka the Full Day Service of this great organization for the collection of news. A telegraph operator in the STATE JOURNAL office is employed for the sole purpose of taking this report, which comes continuously from 7:30 a. m. till 4:00 p. m. (with bulletins of important news up to 9 p. m.) over a wire running into this office and used only for the day Associated Press business between the hours above named.

THE STATE JOURNAL is the only paper in Kansas receiving the Full Day Associated Press Report.

THE STATE JOURNAL has a regular average daily local circulation in Topeka of more than all other Capital City Dailies combined, and double that of its principal competitor—a very creditable morning newspaper.

Member of the American Newspaper Publishers' Association.

THE STATE JOURNAL Press Room is equipped with a Linotype and the latest piece of printing machinery in the state.

## Weather Indications.

WASHINGTON, June 6.—For Kansas: Fair; warmer; easterly winds.

THERE seems to be no herd law against congressmen at large.

WITH Penoyer turned down in Oregon, what will that do now to attract attention?

THE plan to coin American silver in spite of England is so plain that he who runs may (be) Reed.

Susan B. Anthony says that the Woman's Republican association acted like a lot of school girls. Oh, Susan!

FORTY-FOUR candidates for nine offices is not one for each county in the state but it is one for every state in the Union.

"WEALTH is now in control" says Henry Clews. That is just what the general public has found out and is seriously considering.

FROM the outcry that Presiding Elder Naylor makes about the Methodist bishops' tyranny they must be regular Grover Cleveland.

THE Kansas City merchants who gave the commonwealers handkerchiefs and socks, had a clear perception of what they most needed.

CONGRESSMAN MCGANN evidently does not partake of the confidence of the Democrats who figure out a Democratic majority in the next congress.

CLARENCE O. FISCH has found out more about hostages in the last few days than he learned all the time he was reading Caesar at Baker University.

THERE is something charmingly frank and straightforward in Gov. Tillman's assertion, "I am a candidate for the United States senate, and I am going to be elected."

Among the most self-satisfied men at the convention is Hon. Henry Booth, of Larned. Mr. Booth, in addition to expecting rousing Republican majorities this year, says his little orchard on the banks of the Arkansas will yield him a thousand bushels of apples this fall.

THE emperor of China settles strikes by threatening the strikers with strangulation or banishment to the fever regions. The emperor has evidently been consulting with Mr. Carnegie or some of the mine operators in regard to improved methods in this country.

COXEY has accepted the Populist nomination for congress in the Eighth Ohio district in a letter dated "Parlor 67," United States jail. It isn't every candidate that can write his letter of acceptance from original Populist headquarters.

JOHN WESLEY, it is claimed by Dr. Naylor, considered George Washington a rebel. If the people of Cripple Creek who are going to arrest Col. Johnson for hazing Gen. Logan's son at West Point hear of this, they will have all the Methodists arrested for treason.

IN the fourth Illinois judicial district which was 6,000 Democratic at the last election the Republican candidate was elected by 4,000 majority. If Mr. Stead had only waited till the election he would never have had to ask what would happen if Christ came to Chicago.

BILLY BUCHAN doesn't know what to think of silver, is not in favor of suffrage for women and is tired of prohibition, but is in favor of straight out Republicanism. If this position is not flatly contradictory, straight out Republicanism has about the same place in present affairs as the moa in the fauna of Australia.

MRS. J. ELLEN FOSTER says the success of the woman suffrage movement in Kansas depends upon the measure in which it stands for aggressive Republicanism. She simply got the cart before the horse. The success of Republicanism in Kansas depends upon the aggressive woman with which it takes up woman suffrage, prohibition and silver, the real, live issues.

## OHIO REPUBLICANS

In State Convention at Columbus Today—Platform and Nominations.

COLUMBUS, O., June 6.—The Republican state convention reconvened this morning at 10 o'clock.

When ex-Secretary Charles Foster was introduced as permanent chairman, he was greeted with an unusual demonstration.

Gov. Foster spoke as follows: He recounted the unparalleled prosperity of the country on the day of the national election of 1892. The great law that is known as the McKinley act was passed by a very small majority. No trouble then about the lack of a quorum; with Thomas B. Reed as speaker, congress "did business." From the very day of Cleveland's election, business confidence began to be impaired. A feeling of unrest among intelligent people began to manifest itself.

"The question will the Democrats undertake to carry out their pledges become a burning one. Even before Cleveland was inaugurated, public confidence in our future was weakened. As the fact that our financial policy was in the hands of inexperienced and possibly incompetent hands, gradually worked upon our people, they became restive and uncertain as to our future.

"When, finally, it was made manifest that tariff reform was really the purpose of the party in power—thus attacking every industry and the wages of every laboring man, confidence in our future was destroyed and the crash came.

"The trusts got audience with the committees and framers of the law, and can secure such legislation as they desire, while the farmer, manufacturer and laborer are denied a hearing."

## The Ohio Platform.

The Republicans of Ohio in delegate state convention assembled, reaffirm the platform and principles adopted by the Republican national convention of 1892.

Second—The people of Ohio delight to honor their able, distinguished and patriotic public servant, the Hon. Wm. McKinley.

They endorsed his administration of state affairs during his first term by re-electing him by the largest majority ever given to any candidate for governor in time of peace, and we as accredited representatives of the 43,000 Republicans at that convention, do most heartily endorse his present clean, honorable and efficient administration, and we assure him of our highest confidence and esteem.

Third—We commend the seventy-first general assembly of the state.

Fourth—We commend the course of our Republican representatives in congress and of our illustrious senator, John Sherman.

Fifth—We recognize the tariff of 1890, known as the McKinley act as the ablest expression of the patriotic principle of protection yet enacted and condemn and denounce any attempt to repeal or amend it, which does not have for its object better protection to American labor and American interests than is secured by it.

Sixth—We denounce the unjust and inequitable tariff measure known as the Wilson bill and the senate substitutes therefor and amendments proposed thereto, as unpatriotic, favorable to trusts and sectional in their provisions and as subversive of the prosperity and happiness of the people of the United States.

The change from specific to ad valorem duties would promote fraud, encourage fraudulent invoices and decrease the importation revenue to the government by many millions, and result in a constant and continual deficiency, which it is proposed to meet by the resort to such war measures as the income tax and increased internal duties.

Seventh—We denounce the attempt of congress to destroy the principle of reciprocity.

Eighth—We endorse the sentiment of the national grange, i. e., that all tariff laws shall protect the products of the farm as well as the product of the factory.

Ninth—We demand such protection for sheep husbandry as will secure fair prices for wool.

Tenth—We denounce the treatment of American farmers and workingmen by the Democratic committee of the senate.

Eleventh—We denounce the present Democratic administration, its Hawaiian policy having been a national disgrace.

Twelfth—We denounce the administration of the present pension bureau as a deliberate betrayal of the welfare of Union soldiers and sailors.

Thirteenth—We demand the enactment of such legislation as will prevent the immigration of the vicious and criminal classes of laborers under contract of paupers and anarchists.

Fourteenth—We favor bimetalism. Silver as well as gold is one of the great products of the United States. Its coinage for use as a circulating medium should be steadily maintained and constantly encouraged by the national government; and we advocate such a policy as will by discriminating legislation or otherwise most speedily restore to silver its rightful place as a money metal.

Fifteenth—We denounce the avowed purpose of the Democratic leaders to restore the era of "wild cat" and "red dog" money by repealing the prohibitory 10 per cent tax on state bank issues. All money of whatever kind should be under national and not state control.

Sixteenth—Commends Nicaraguan canal.

Gov. McKinley was given an ovation on entering the hall. Auditor of State Poe read the report on resolutions which was adopted with frequent applause.

S. M. Taylor was nominated for secretary of state—no opposition. John A. Shamack of Dayton was nominated for judge on the third ballot, over F. J. Dykeman, a candidate for renomination, and John A. Price, C. E. Groce was nominated for board of public works and of the Carson for school commissioner.

Inferences in the speeches are to the effect that Foraker is the favorite for United States senator and McKinley for president.

Delegates to the convention are cordially invited to leave a dollar at this office for which the DAILY STATE JOURNAL will be mailed to any address one hundred days. There is scarcely a town in Kansas but what is reached by the JOURNAL, each evening or early the next morning.

## WILL ASK DAMAGES.

Tube Works Officials Want Pay For Injury Done by the Mob.

McKEESPORT, Pa., June 7.—In an interview with a representative of the Associated Press, General Manager Converse of the tube works, stated that the mill would remain idle for the present. No deputy sheriffs have been asked for to protect the works, and no men will be imported to start the works.

He said further that when the plant resumed yesterday they had 330 men at work, and but for the mob, which frightened them away, the works would have been as full at the end of the week as the meagre demand of the product at the present time would warrant. As to the future intentions of the company he said: "I can say nothing further except that we are now in consultation with our attorneys with a view to placing the enormous damages to which we have been subjected on the proper official's shoulders."

There were probably 300 men hurt during the rioting yesterday, some of them seriously. It is difficult to ascertain the extent of their injuries, as they were promptly taken to their homes.

Most of the persons who were hurt are foreigners. Lewis Maullin and Joseph Kobsky were badly kicked and beaten, and sustained serious internal injuries which may result fatally.

Mayor Andre has issued a proclamation, cautioning the people not to congregate on the streets or around the works. The majority of the strikers crossed the river to Port View, when this announcement was made. Mayor Andre says he is prepared for any emergency. He has not increased the police force or asked for assistance from the county authorities.

The city was half deserted this afternoon by the departure of a mob of 2,000 strikers to Camden, three miles south of here. Their mission is said to be the destruction of coal tipples, the object being to enlist the striking miners in their cause.

Lynchings at the hands of the mob which destroyed the Port View tipples. The captain tried to check the progress of the mob at the point of a revolver, but the mob made a rush on him, and would have reached him if it had not been for some of the miners who rescued him from the strikers.

## GREAT EXPECTATIONS.

Populists Have Hired the Fairgrounds and Expect 25,000 People.

The big demonstration promised by the Populists for next week during their state convention, will be a disappointment if 25,000 farmers do not drive into Topeka to participate in the event.

The executive committee of the State central committee in preparing to carry out the plan of Chairman Breidenbach has engaged the state fair grounds for all of next week.

The fair grounds will be the headquarters of the farmers, and that is where the pilgrims will camp with their horses and wagons.

It is the understanding among the Populists at the state house that farmer members of their party will come to Topeka in wagons from all directions the distance of seventy-five miles and they will show Republican Topeka that Populism is neither dead nor sleeping.

## CALIFORNIA WEALERS.

Part of Colonel Vinette's Regiment in Camp at the City Park.

Five members of the Second California regiment of the commonwealth army are in camp at the city park, on the bank of the river. They are under the command of Captain J. T. Cook and belong to the regiment that was arrested in California for trying to steal a Southern Pacific train. They are from Los Angeles and Culton, and when they were arrested numbered about 260.

They lay in jail for twenty-five days and were released on suggestion of the county attorney. Since then the men have been endeavoring to get through to Topeka as best they could in squads, which the colonel of the regiment, Vinette, had decided on as a meeting point. The colonel was to have been here Monday, but was prevented by the floods in Colorado and may arrive any time. When he does and the army is all here they will proceed to Kansas City on foot and there take the river for Washington.

The men are intelligent looking and say that nearly the entire army is made up of mechanics and farm laborers, many of whom are veterans. Among them are twenty old soldiers. The members of the army wear small United States flags for badges and have banners reading "Peace and good will to all men" and "Not charity, but justice."

Read the "Wants." Many of them are as interesting as news items. See if it is not so.

## FULL OF SMALLPOX.

A Car of Wheat With a Sick Man Inside of It.

CHICAGO, June 6.—A car of No. 3 red wheat standing on the tracks at 47th and Stewart avenue will probably be burned by the city health department today on suspicion of being infected with smallpox. The car belongs to the Wabash road. Thomas Halligan, assistant grand inspector, went to the car to make his official examination. When he swung open the door a terrible looking face emerged, a dusty form next appeared, and the stranger let himself to the ground.

"Hello; what's the matter with you?" inquired Halligan.

"Nothing; only I'm sick," replied the stranger, and he stumbled down the track to an empty fruit car, which he entered.

Just then a car repairer for the road came up and questioned the man who lay on the floor. The stranger replied that he came from Decatur, Ill. He suddenly arose and crawling from the car disappeared down the tracks. The car repairer was afraid to restrain him. When the police arrived no trace of the man could be discovered. The car was consigned here from Hull, Ill., to a board of trade firm who will not handle it.
